

Booking Accessible Tickets for the Royal Windsor Horse Show

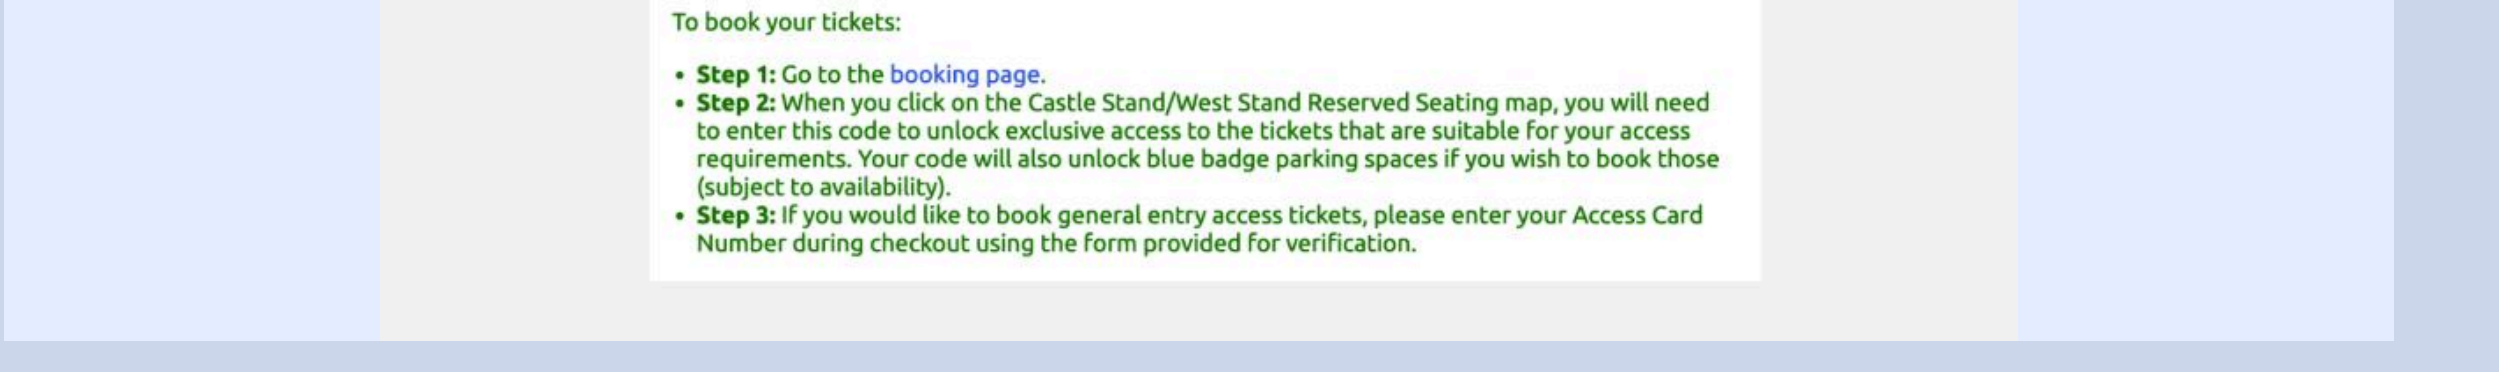

Royal Windsor Horse Show partners with Nimbus Disability, a UK Social Enterprise that helps validate customers' needs for accessible ticketing and seating. This ensures that accessible tickets - such as wheelchair bays - are reserved for those who genuinely need them.

These accessible tickets are limited and are therefore restricted to only those customers who require them.

Route 1: If You already have an Access Card or valid RWHS Digital Access Pass

For the 2025 event, we introduced the RWHS Digital Access Pass or DAP via our Partner Nimbus. This DAP lasts for 3 years, so you won't need to go through the application process again. Just like having a valid Access Card, you just need to generate your access code:

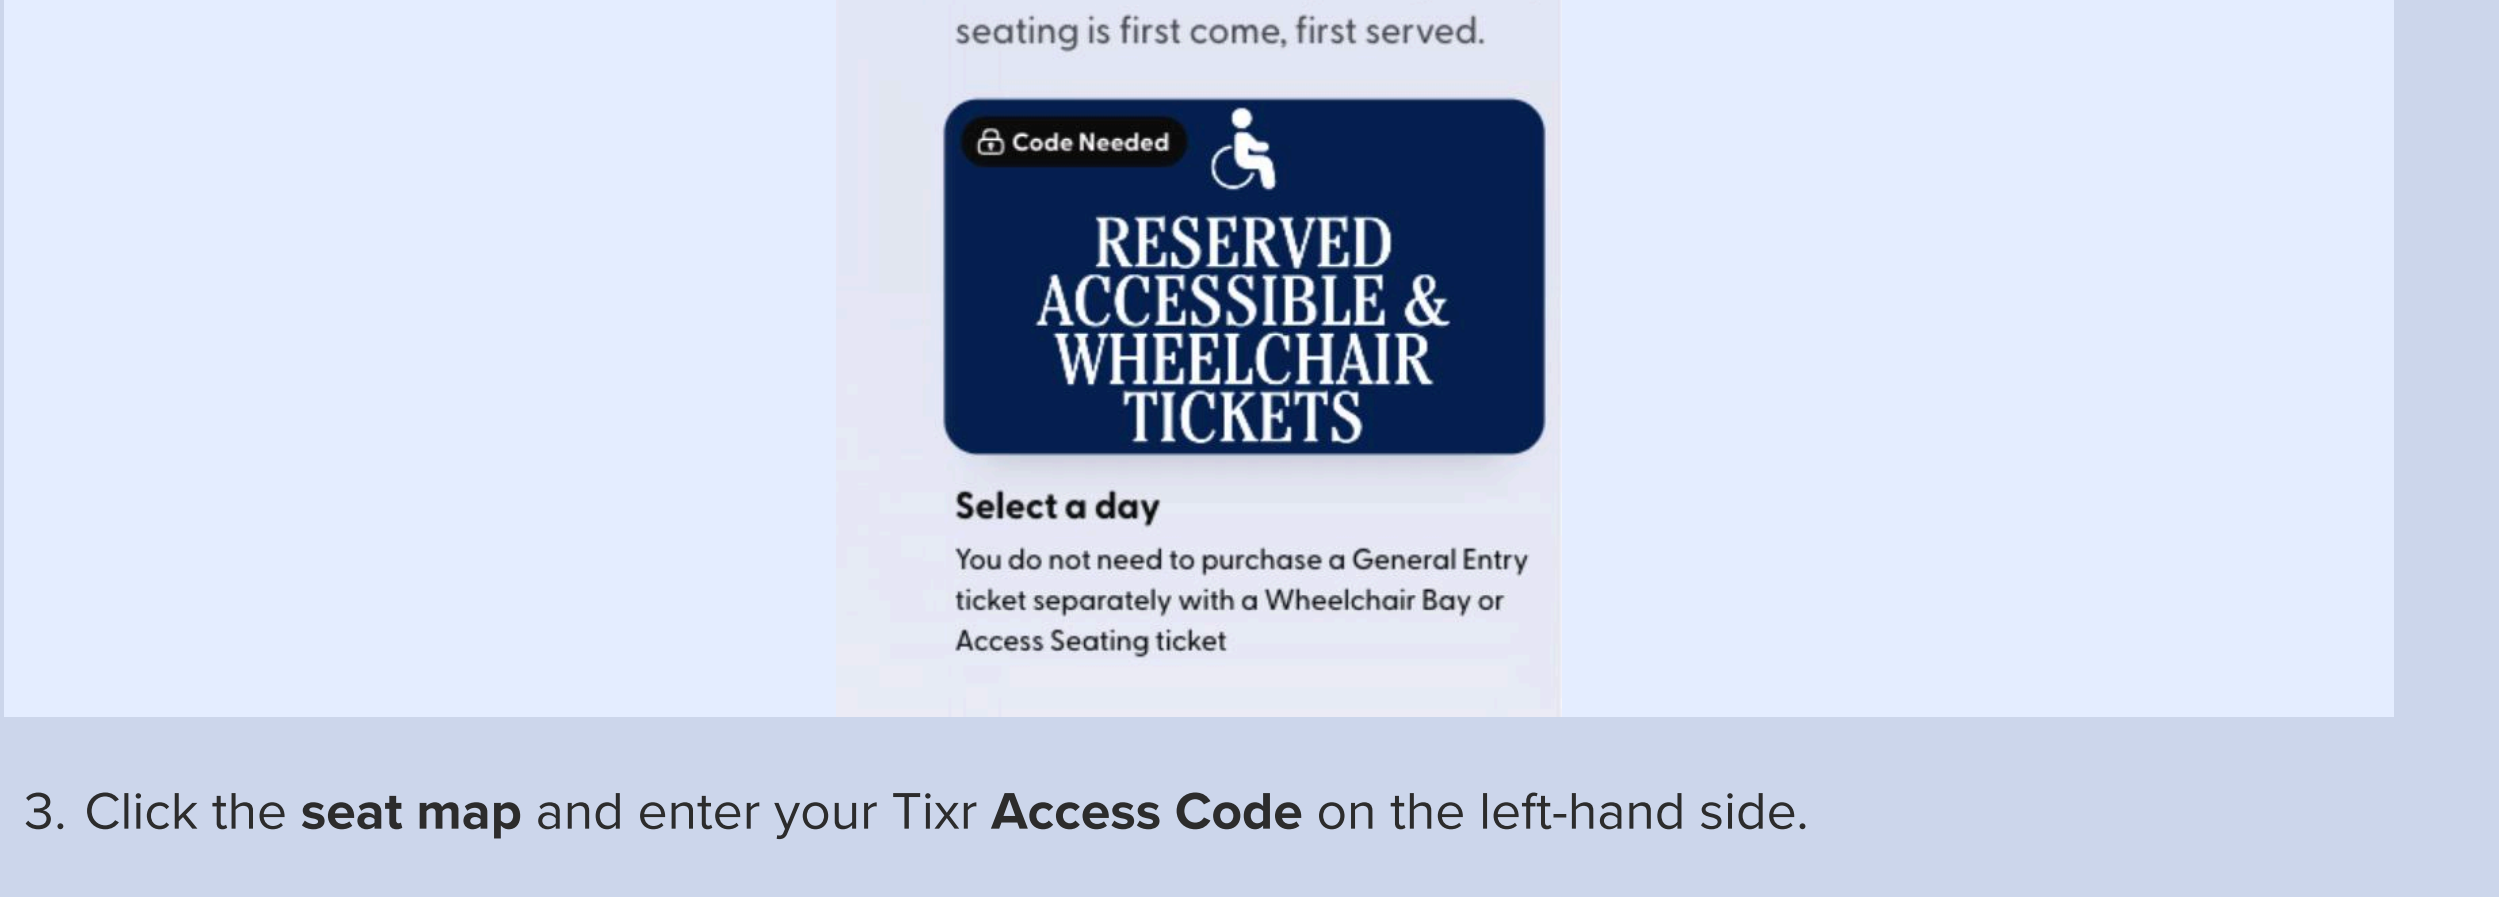

- Your code unlocks accessible seating options on the seat map - such as **Accessible Seating or Wheelchair Bays**, depending on your needs. You will see those needs as symbols on your Access Card or your DAP confirmation email from Nimbus. If you are unsure of your DAP number, please search your emails for your RWHS Digital Access Pass
- To generate your code, please visit the link here: <https://app.accesscard.online/form/royal-windsor-horse-show/>
- Your Code generation will look something like this:

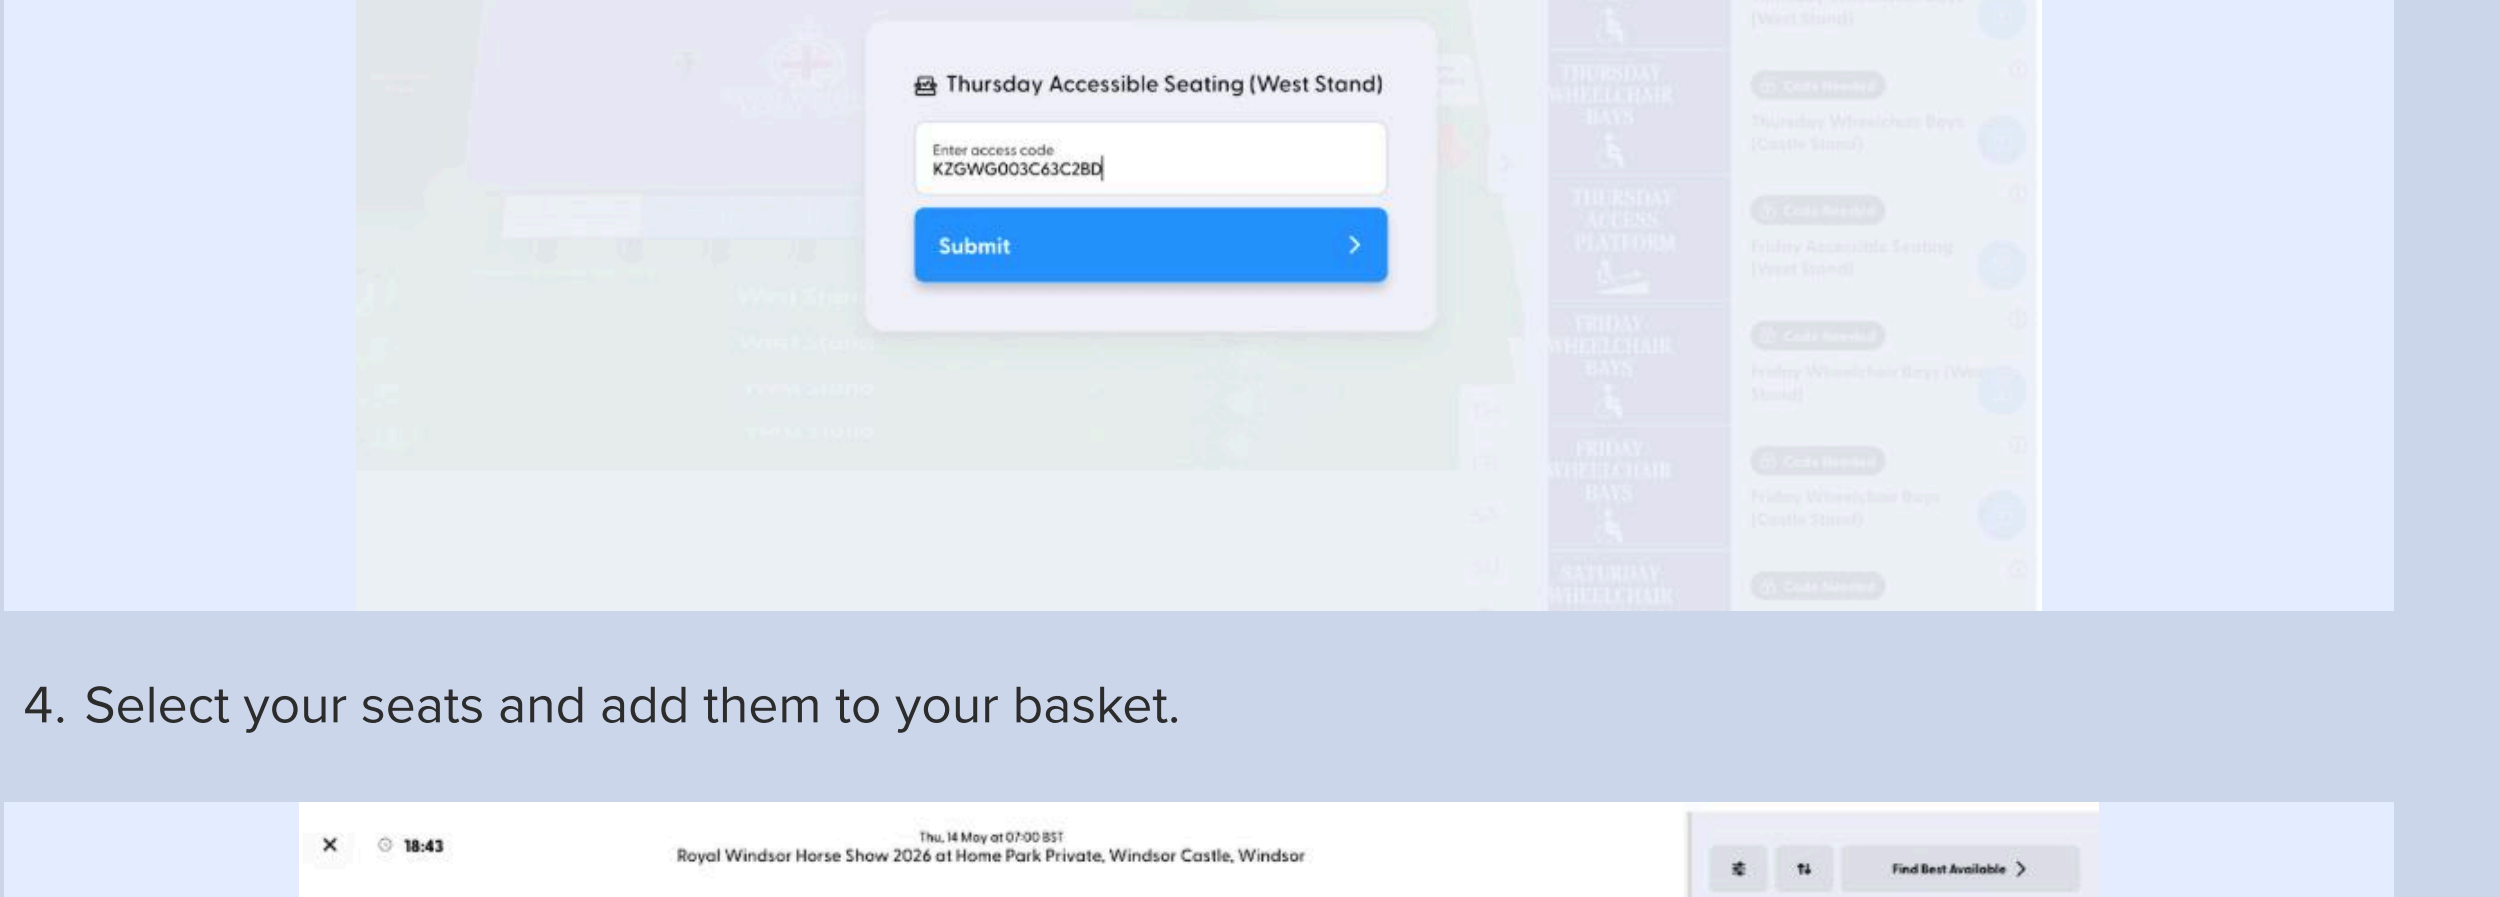

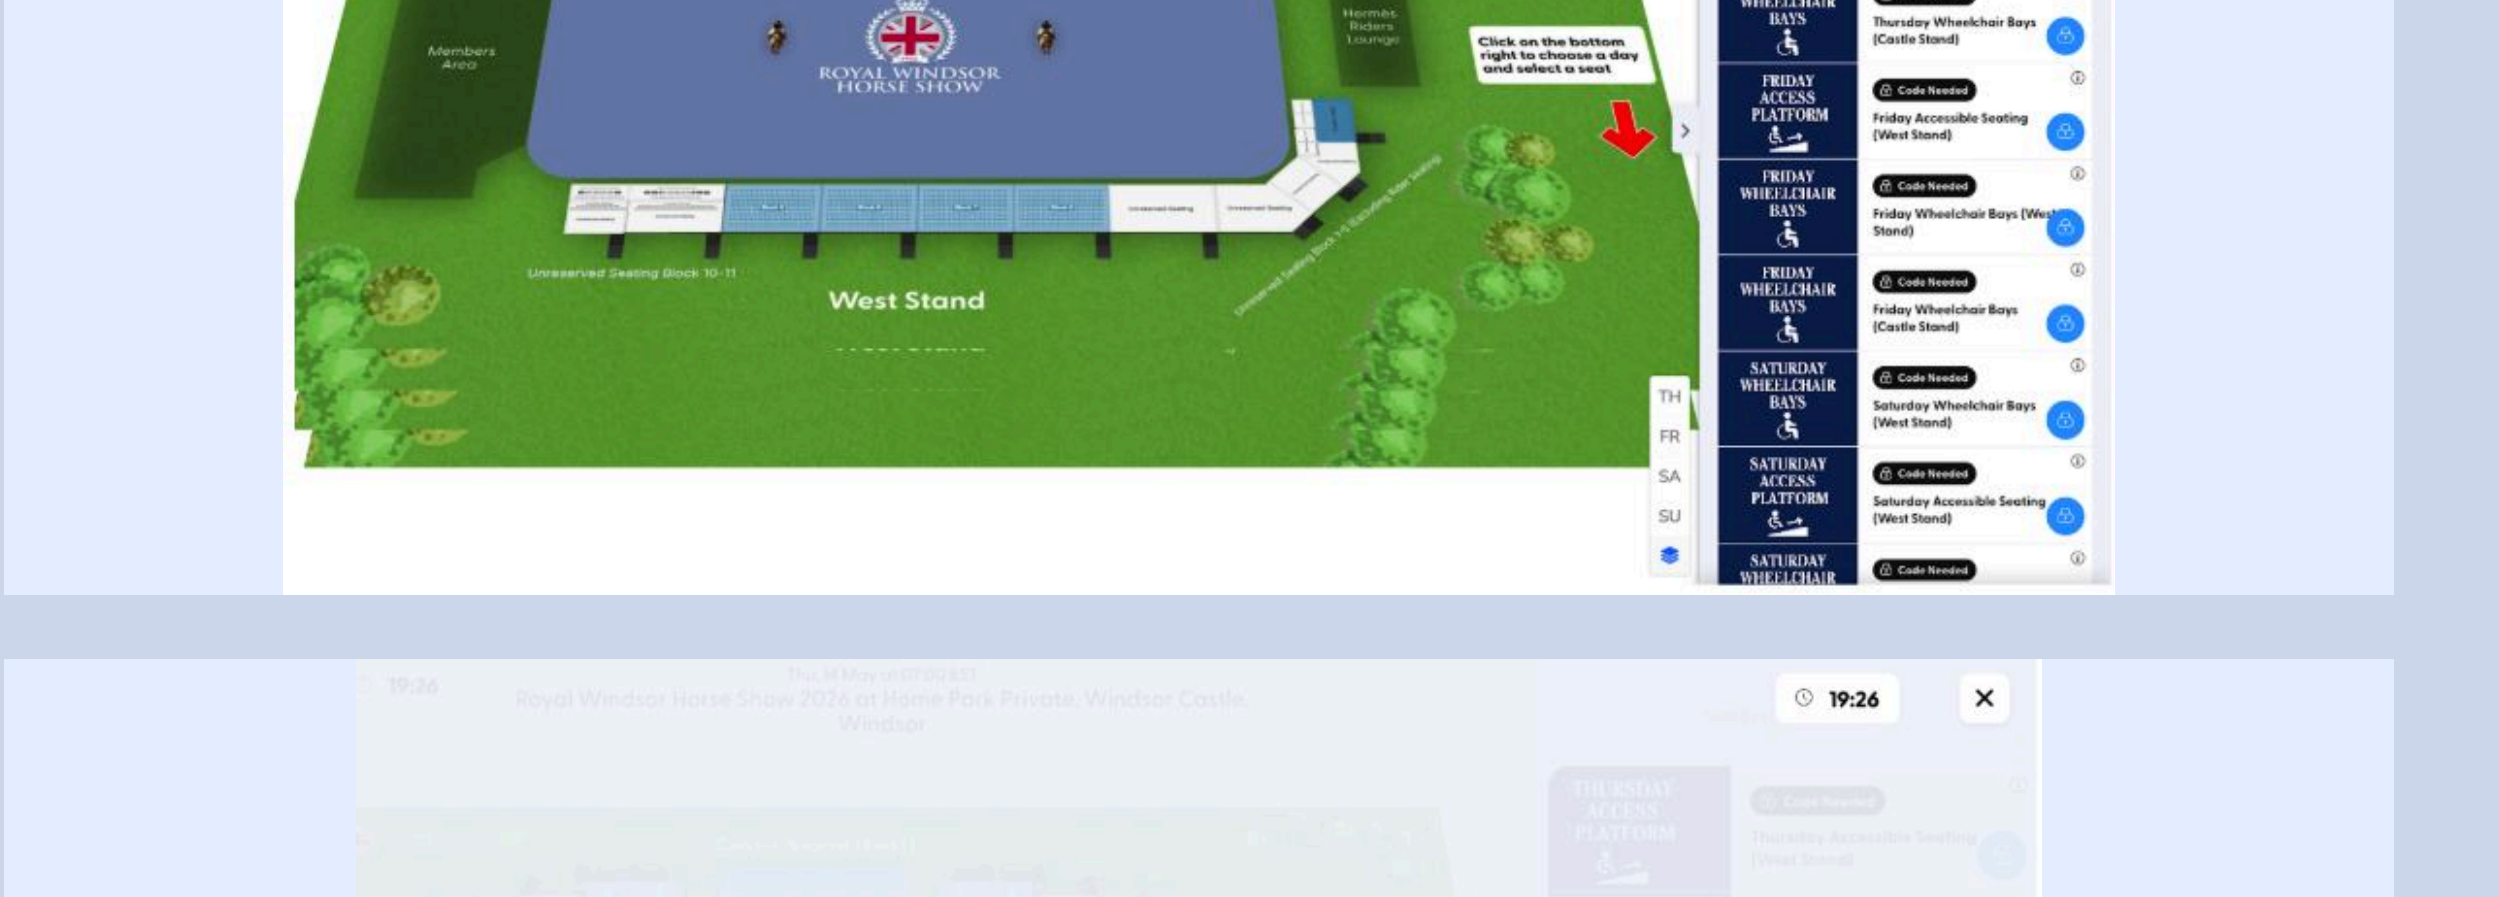

Please note your code down for use in the ticket booking process below.
NB If you do **lose your code** and need to view it again, you can complete the [code generation form](#) again as above and it will provide you with the same code.

To book tickets:

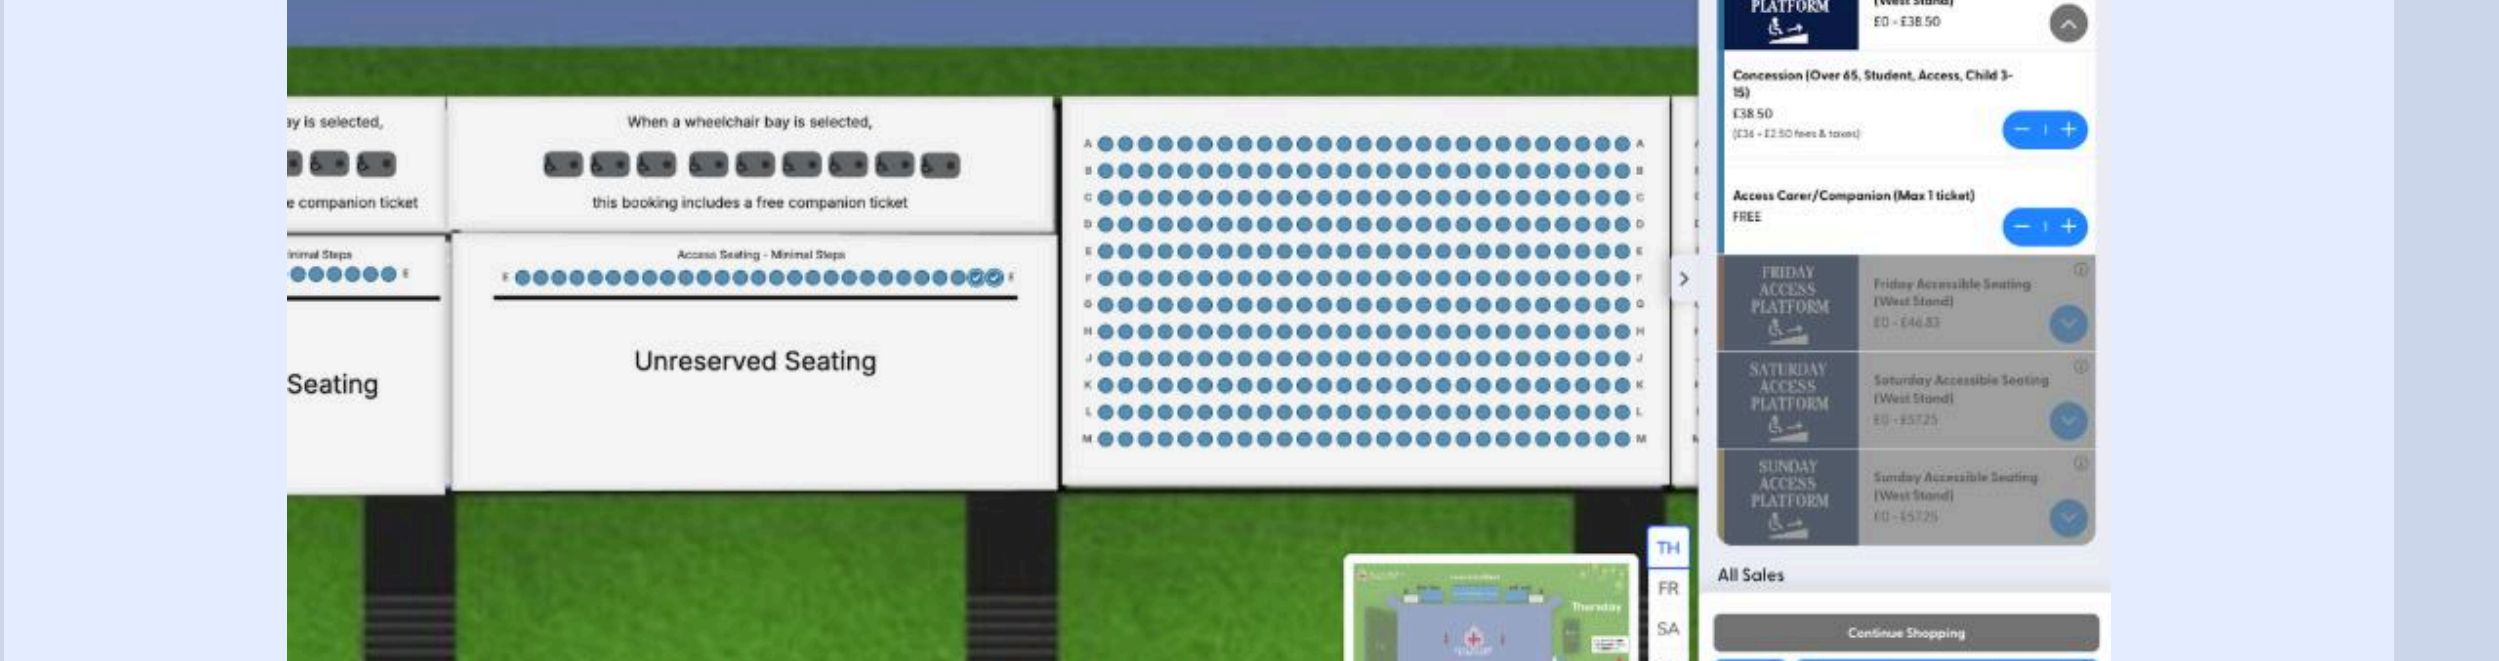

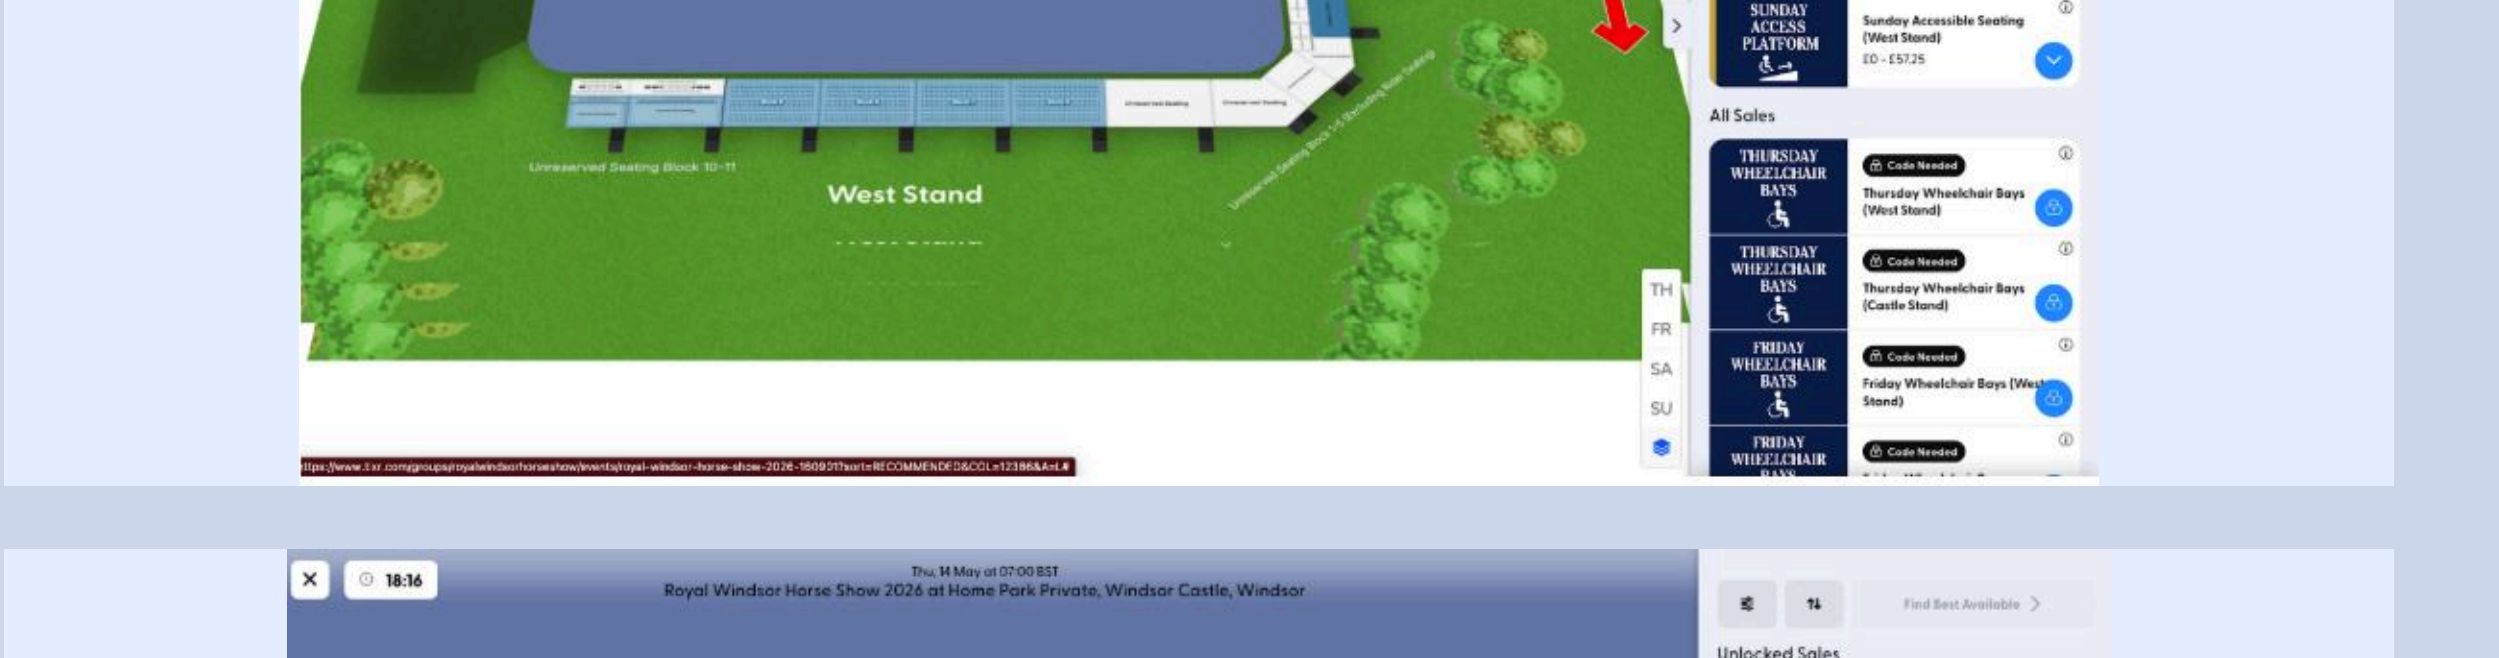

- Go to the RWHS 2026 event page
- Scroll to the access booking section

- Click the **seat map** and enter your Tixr **Access Code** on the left-hand side.

- Select your seats and add them to your basket.

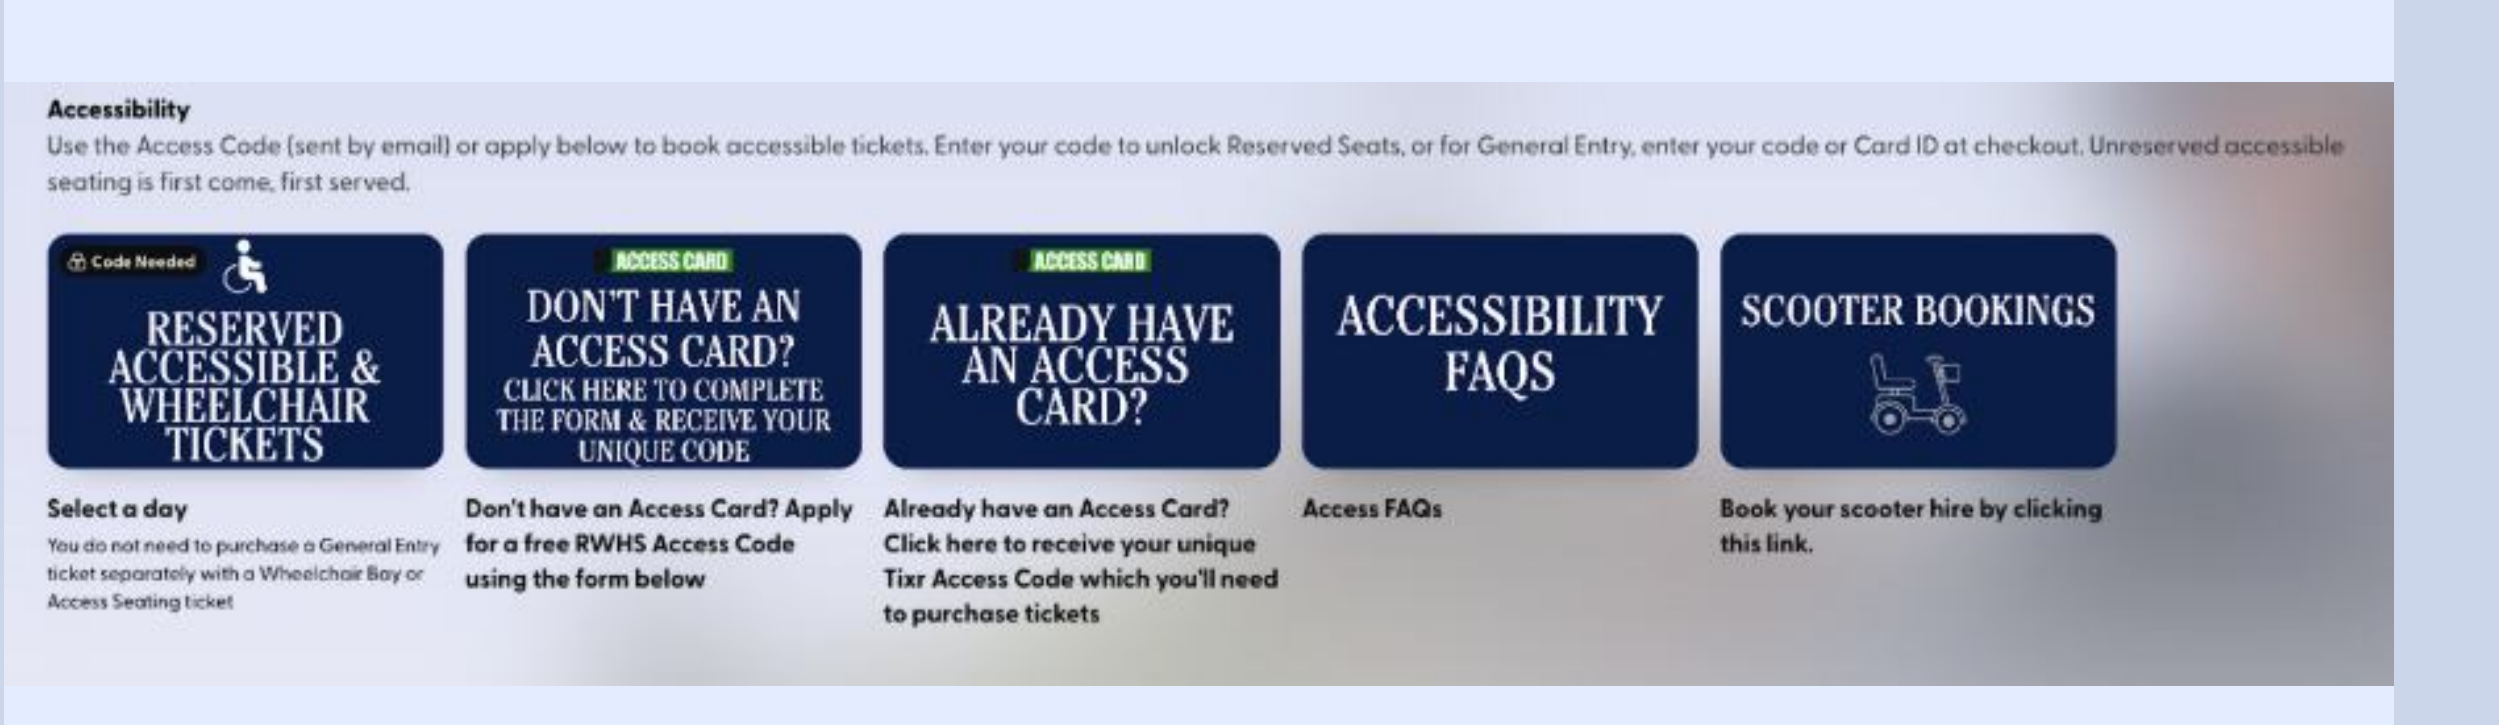

Route 2: Are you a new RWHS customer?

We partner with **Nimbus Disability** to confirm your access requirements and issue you a Tixr **Access Code**. This enables you to select the correct seating type as well as the essential companion tickets.

To get started:

- Go to the **RWHS 2026 event page** and scroll to the **Accessibility** section

- If you already have an **Access Card** or a **RWHS Digital Access Pass (DAP)** from 2025 click through to enter your card or DAP details and receive your Tixr Access Code. Remember to type your name exactly as it appears on the card or DAP.

- If you don't have an **Access Card**, fill out the online form where you will be asked to describe your access requirements and provide some documents to validate this. When you have done this, it will be valid for 3 years, so you just have to do it once!

- Once verified, Nimbus will email you with a **RWHS Digital Access Pass** and link to generate your **Tixr Access Code** - you can then return to the event page to book your accessible tickets

Key Definitions

Our team doesn't have the authority to make changes to any event's policies or offer exceptions to them. We recommend you check out the specific policy on the event page for more information.

If you still don't see the information you need, we recommend checking the event's website and FAQs for their contact details. The event organiser may be able to assist.

E.g: KW35GDBFBSJ

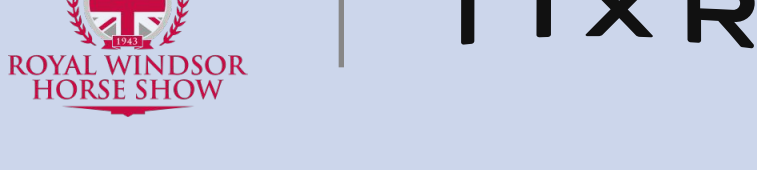

Tixr Access Code
A unique code (e.g. KW35GDBFBSJ) that unlocks access seating on the Tixr seat map.

Nimbus Disability
A UK-based organisation run by disabled people. Nimbus helps events like RWHS make their ticketing fairer and easier for fans with access needs.

Access Card
A national ID card from Nimbus Disability that securely communicates your access requirements when booking tickets. Once verified, you'll receive your Tixr Access Code to unlock the right seats.

RWHS Digital Access Pass (DAP)
A free 3-year pass that simplifies access booking for the Royal Windsor Horse Show. After Nimbus verifies your needs, you'll get an Access Code to book accessible seating such as wheelchair bays or platforms.

Tixr
The official ticketing platform for RWHS, where you can browse events, choose seats, and book tickets - including accessible options - all in one secure place.
